

## Handout B: What is the model for a Liberal Jewish Community?

### *What is your community?*

Religious Institution?

Members' Club?

Service Provider?

Something Else?

*"I pay my dues because I believe in the organisation and what they do."*

*"I pay my fees because it is a commitment I make to my community."*

*"I donate this money because being a supportive member is something I value."*

### *"The National Trust Model:"*

- The organisation supports something that it values and ensures it is available to all.
- Members are those who want to benefit from the thing of value and also ensure it is there for all.
- Membership fees are not dependent on usage.
- Non-members can pay according to usage but are encouraged to join.
- Members feel proud their contribution and pleased with the benefits it offers them.
