The Hit and Run of Yueyue

Two-year-old Yueyue was left fighting for her life and was thought to be brain dead after an incident in Foshan city, in southern Guangdong province.

CCTV footage, which was shown on a local television station, showed the little girl wandering along a narrow market street before a van drives over her. As she lies in a pool of blood on the ground, several people walk past without stopping to check on her. She is then hit by another van which appears to run over her legs - by this time about 18 people have failed to come to her aid despite obviously seeing her lying in agony. Finally, rubbish collector Chen Xianmei picked Yueyue up and moved her out of the road.

Both drivers of the vans have been arrested and some have called for harsh punishments for them.
